## 2025 Financial Wellness Symposium Recap!

SBT  
Events

### Greetings Institutional,

We're thrilled to share that our recent Financial Wellness Symposium was our most successful yet! We had an incredible turnout, and an engaging day filled with valuable insights on the current state of the economy, launching your entrepreneurial journey, building a real estate portfolio, and investing in retirement.

This event wouldn't have been possible without the expertise of our esteemed speakers. A huge thank you to [Calvin Faison](#), [Dayron Bowers](#), [Paul Cummings](#), Alex Bahun and [Gabby Areno](#), [Anthony Hanchett](#), [Yuen Yung](#), [Jon Mendoza](#), and [David Gatchell](#) for sharing their knowledge and inspiring our attendees.

We're already looking forward to next year! So, keep an eye on your inbox for pre-registration details in Spring 2026.

Thank you to everyone who attended and contributed to the success of this year's symposium. We're committed to providing valuable resources and opportunities for our community to enhance their financial success.

P.S. Want to relive the highlights? Check out our recap video on our [LinkedIn post!](#)

**HT Sesquicentennial Commencement**  
The event will mark HT's 150th anniversary.

## SBT Calendar

# Highlights

### ICPC Coding Competition

For the second year in a row, our innovative computer science

### Python Coding Class

We're proud to spotlight one of our exceptionally talented and driven

students achieved 2nd place in the recent ICPC TXST Texas-Mexico Invitational Programming Contest!

The competition has been hosted at Texas State University the past several years and expanded from an intra-campus to an inter-campus event.

This is a huge accomplishment as the competition includes universities from across the state of Texas and country of Mexico to participate. Congratulations to our talented students, [Joshua Umoru](#), [Ayomide Isinkaye](#), and [Abdulwakil Abdulkadir](#)!

computer science students, [Joy Itodo](#), who started a comprehensive Python programming course for fellow students.

Over five weeks, Joy has dedicated her time to teaching three weekly sessions, guiding participants of all skill levels through the fundamentals of Python. The intensive course will wrap up at the beginning of May, with many students now equipped with the ability to code using Python.

This initiative exemplifies the collaborative spirit and dedication to learning that thrives within the SBT. We look forward to continuing to empower our internal community with valuable programming skills in the fall.
